Attention: DECISIONS & CERTIFICATE OF CORRECTION BRANCH

In a decision dated November 1, 2006 the Decisions & Certificates of Correction Branch denied Applicant's request to correct certain minor mistakes in the above reference patent, citing CFR 1.322 (see enclosed). However the original request makes no mention of such provision, and does not allege it was a PTO printing error. Instead the request specifically relies on 35 U.S.C. 255, 37 C.F.R 1.323 & MPEP 1481, and in this respect points out that the requested changes merely correct obvious minor mistakes and do not add new matter to the disclosure or require that reexamination be made of the original subject matter.
In view of the above, Applicant requests that the Office reconsider the request in light of the correct provisions, and issue a Certificate of Correction under such authority.

Respectfully submitted,

J. Nicholas Gross, Attorney, Reg. No. 34, 175

Request for Certificates of Correction

Consideration has been given to your request for the issuance of a Certificate of Correction,
for the above – identified patent under the provisions of CFR 1.322.

Inspection of the application for the patent reveals that claim 11- 60 is printed in accordance
with the record. Therefore being no fault on the Patent and Trademark Office, It has no
authority to issue a certificate of correction under the provision of 1.322.

In view of the forgoing, your request in this matter, is hereby denied.

Future written correspondence concerning this matter should be filed and directed to
Decisions & Certificates of Correction Branch.
